ELECTRIC POWERED FORKLIFT 1.5 to 3.0 TON

# **ACTIVELY FUNCTIONS TO ACHIEVE EXCELLENT STABILITY**

Prevents load spills by controlling tilt angle and tilt speed according to the height of the lift.

- Active Mast Front-tilt Angle Control
- Active Mast Tilt Speed Control

Controls turn speed and limits maximum traveling speed, according to the status of the vehicle.

- Automatic Vehicle-speed Control
- Automatic Turn-speed Control

Supports smooth and accurate operations through operator-friendly load-handling and traveling controls.

- Automatic Fork-leveling Control
- Active Steering Synchronizer

## Adds a visual alert of the forklift's presence.

## Brighter and more durable, with low energy consumption.

**NEW** LED Front Combination **NEW** LED Rear Combination Lights **NEW** LED Rear Working Light **OPT** LED Yellow Beacon OPT

# **MANAGEMENT SUPPORT**

Achieves a more-secure and disciplined work environment through customized features to manage your forklifts and operators.

Easy to determine whether your operator's seat belt is properly fastened.

**NEW** Orange Seat Belt OPT

NEW Seat Belt Interlock System OPT

Note: When this option is selected, the color of the seat belt will be orange.

Warns by visual indicator and sounds if impact is detected.

Shock Sensor OPT

Visualizes a wide range of data such as vehicle operations by each operator, detected shocks and battery usage.

**NEW | Site OPT** (Telematics with POC)

Prevents use by unauthorized persons, and allows customized vehicle settings.

PIN\*-code Entry System OPT
\*Personal Identification Number

High-visibility display enabling a variety of vehicle settings as well as showing necessary information on the vehicle.

# **Standard Display**

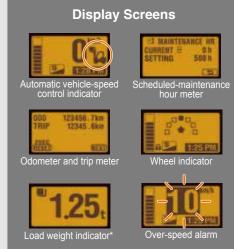

- Overheat warning indicator
- Power-select function indicator
- Parking brake warning indicator
- Hour meter and more

# Multifunction Display OPT

- Digital speedmeter
- Wheel indicator
- Load weight indicator \* and more

\*Available on Deluxe Multifunction Display OPT

Enables an operator to handle loads, or switch directions without even taking the hands off the steering wheel. Effortless, fingertip controls reduce fatigue and ensure a comfortable posture.

Mini Lever OPT / Joystick OPT

# **OUTSTANDING OPERABILITY**

Great comfort to get more work done with less effort by the operator.

Makes everyday work stress-free with easy entry and exit.

Large Assist Grip / Wide Step

**Self-stowing Parking Brake** 

Comfortable features to help you get through long working times.

Small-diameter Steering Wheel

**ORS\* Seat with Suspension** \*ORS: Operator Restraint System

## More storage space for various work tools.

Small-diameter Steering Wheel

Assist Grip 1

Large

Self-stowing Parking Brake 2

Wide Step 1

when the accelerator is released on slopes. Accelerator Release

Stops and then descends at a constant speed

Anti-rollback

TOYOTA

**LED Rear** 

**NEW** Combination

Rear Pillar Assist Grip

Pencil and Tape
Holder OPT

ORS Seat with Suspension OPT

Lights

**Enables outdoor** operations in all weather.

Features and equipment may vary depending on market.

**High Water Resistance** 

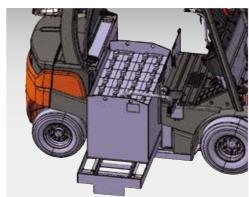

# Quick and easy battery exchange for even more efficient work.

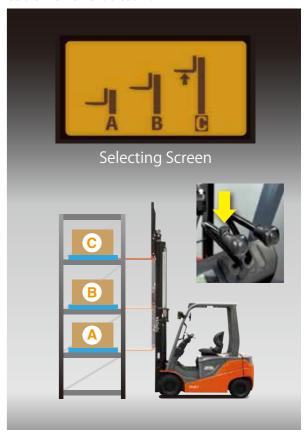

Battery Side-out\* OPT

Battery Roll-out\* OPT

# Positions your lift height with a single touch of the button.

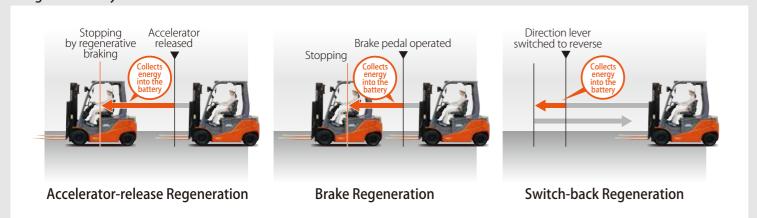

Height Selector\* OPT

\* Not available for 3.0 ton model.

### Realizes long operating times with efficient energy recovery.

- Auto Power-off Function
- Regenerative Systems

S mode achieves both long operating times and comfortable operations.

H mode is also available for demanding operations.

Power Select Function

For operators who want more travelling power only on slopes without adjusting power mode through multi-function display.

Slope Sensing Auto Power Mode Selector OPT
